

Clark Forklift

At present, there are over 350,000 Clark lift trucks performing globally, and in excess of 250,000 in commission in North America alone. With five main lines across the world, Clark is proud to be one of the most expansive companies in the industry. Heavy duty trucks ranging from 1,500lb to 18,000lb capacities, dual fuel, gas, LPG, hand-driven trucks, narrow-aisle stackers and electric riders are some of their specialties.

Clark Totalift, covers more than 120,000 specific parts designed for 20 unique designs of lift trucks and automated equipment. Your regional Clark Seller is your complete source for availability of all your components needs supplied by Clark Totalift.

Clark features a exceptional Parts Distribution team. The components warehouses are conveniently stationed in Changwon, South Korea and Louisville, Kentucky to guarantee exceptional service to both their customers and their sellers. For over 90 years, Clark has surpassed industry standards, being one of the most actively advancing producers. Driven to provide the highest level of value and service to our customers, Clark remains on the leading edge when it comes to enhancing output and benefiting performance.

Globally, Clark has one of the most impressive supplier support networks. With over 550 locations worldwide, seller representation in over 80 countries and 230 locations in North America, their high level of commitment to their consumers predominates the materials handling industry.

By pioneering the operator restraint system protection feature, Clark proudly remains a leader of innovation in the industrial equipment and automated forklift industry. This exceptional dedication to safety is at this time a customary feature on every lift truck.

Clark's recurrent mission to possess the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 — Clark, is the first lift truck maker across the globe to be certified with the internationally approved quality standard ISO 9001 for every one of their production plants. Additionally, the ISO 14001 Environmental Stewardship System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement permits Clark to be ready for any environmental limitations, thus placing them in a dominant market position.

Lean Manufacturing

Clark has chosen the particularly economical and advantageous system of "Lean Manufacturing" for its assembly facilities and use of resources. This structure was established to acknowledge the most successful approaches of production facility management and ensuring maximum efficiency. Clark has completed this transition of its Korean facility. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and manufacturing efficiencies.

Engineering

By working together, Clark's product suppliers and engineers communicate towards improving product efficiency while minimizing costs. The new value engineering program combines innovative product improvement and provides improved consumer support and service within the industry.
